PUNJAB ENGINEERING COLLEGE (Deemed to be University)

The Punjab Engineering College is one of the premier institutes of Technology in India. It was originally established as Mugalpura Engineering College at Lahore (now in Pakistan) on November 9, 1921. In 1953, the college shifted to its present campus in Chandigarh. In October 2003, the Punjab Engineering College became a Deemed to be University under UGC and the institution was renamed in 2009. Currently PEC is offering eight undergraduate programmes, fourteen post graduate programmes and PhD programmes in all disciplines of Sciences, Engineering and Management.

DEPARTMENT OF APPLIED SCIENCES

The Department of Applied Sciences offers UG courses and PhD programme in Mathematical, Chemical, Physical Sciences and Engineering Geology. The faculty is pursuing multi-disciplinary research in Topology, Coding Theory, Multiferroics, Catalysis, Organic and Inorganic Chemistry and Remote Sensing applications to Geology at the interface of Science and Engineering for development of new Technologies.

OVERVIEW

The burgeoning engineering education in India is committed to developing and contributing towards excellence in newer technologies which are expected to reward our society by improving the overall quality of life.

This workshop will focus on understanding new concepts of functional ordered phases of magnetism, ferroelectricity, multiferroics, and Li ion battery through invited lectures, delivered by eminent faculty/scientists. This workshop will foster enhancement of knowledge, interaction, stimulate, motivate and further future collaborations among the eminent speakers, faculty and student participants, particularly, among the CRIKC (Chandigarh Region Innovation and Knowledge Cluster) Institutions.
