## ABOUT THE CONFERENCE

This conference aims to bring together academic scientists, professors, research scholars and students to share and disseminate information on knowledge and scientific research works related to artificial intelligence, machine learning, deep learning, distributed, parallel and cloud computing and networking, and data analytics to discuss the practical challenges encountered and the solutions adopted. There will be a conference pre-workshop with **"Women in Computing"** theme to provide a congregation platform for all women researchers.

Proceedings of AICTA-2023 is planned to be published in Lecture Notes in Electrical Engineering (LNEE) of Springer series.
