About Punjab Engineering College

Punjab Engineering College (PEC), with its roots in Lahore as Mugalpura Engineering College since 1921, moved to its present campus in 1953 as PEC affiliated with Panjab University. The institute became a Deemed University in 2003 through an MHRD notification.

It is a Grant-in-Aid institution under the administration of the Union Territory of Chandigarh, Government of India. The institute has a sprawling and pious 146-acre campus and also houses the Chandigarh College of Architecture. The academic and administrative processes are similar to those of IITs in the country. The institute's governance is through a vibrant Board of Governors, and it is headed by a Director with a 5-year tenure, a position equivalent to the Vice Chancellor of Universities.

The institute offers 11 Undergraduate B.Tech. Programmes and 14 Postgraduate M.Tech. Programmes in various disciplines of engineering and technology. After becoming a Deemed University, the institute also started a PhD programme in various disciplines of engineering, science, management, humanities, and social sciences. UG and PG programmes admit students through national-level examinations, namely JEE (Mains) and GATE, respectively. There are 11 academic departments and 2 centres of excellence. The faculty of academic departments and centres are involved in cutting-edge research and development work. The institute collaborates closely with research organisations, industries, alumni, and other academic institutions both in India and abroad and has signed MoUs to pursue joint research in niche areas. Graduates from this institute are placed in highly reputed companies with handsome salary packages.

With a history of 100 years now, the institute has produced numerous alumni who have earned names and fame for themselves and the institute.

Vision

To become a centre of excellence in technical education and research and to occupy a place amongst the most eminent institutions of the nation.

Mission

- To build a culture of excellence in teaching and learning across the institute with needed performance and accountability from all support activities.
- To enhance the institute's standing as the institute of choice for students across the country; and to augment the presence of international students to at least ten percent of the student body.
- To cultivate a field in which new ideas, research and scholarship flourish leading to the emergence of creators, innovators, leaders, and entrepreneurs.
- To design the education through a continuous process so that the students qualifying from the institute have the top rating in placement.
- To achieve excellence in application-oriented research in selected areas of technology to contribute to the development of the region and the nation.
- To promote co- and extra-curricular activities for the over-all personality development of the students.
- To develop responsible citizenship through awareness and acceptance of ethical values.
- To develop responsible citizenship through awareness and acceptance of ethical values.
- To build a family of alumni and friends to create a network of allegiance and support for the institute.

Bachelor of Design (B. Des.) Programme

The importance of design as a strategic tool for innovation in boosting industrial and national competitiveness is well-known and supported by the national education policy of India. To realize this goal, we will prioritize increasing access to high-quality design education and expanding the many ways design is applied across industries. As part of its mission to support the nation's vision for design, Punjab Engineering College will offer world-class design education, research, and training to meet societal demands. Punjab Engineering College's Department of Production and Industrial Engineering proudly introduces its Bachelor of Design program, a trailblazing initiative designed to nurture the creative visionaries and problem solvers of tomorrow. Backed by a distinguished faculty comprising seasoned experts from premier institutions such as IITs, NITs, and PEC, the program offers a unique blend of academic rigor and real-world experience, setting the stage for students to excel in the dynamic field of design. With an unwavering commitment to excellence, the program has attracted a cohort of 26 talented individuals, carefully selected through rigorous entrance exams such as UCEED, JEE, NID DAT and NATA reflecting the caliber and ambition of the aspiring designers. Apart from interdisciplinary teaching, the dedicated and independent workshops of Carpentry, Metal sheet, Welding, CNC, 3D printing & scanning, and computer labs at the department are equipped with modern tools to provide hands-on experiences to our design students. In these workshops, our knowledgeable instructors and devoted technicians assist students in refining their abilities to manufacture a diverse range of products. In order to draw upon the knowledge and experience of design academics and professionals from across India, industry and academic experts are frequently invited to deliver lectures and conduct workshops. Expert academicians from IITs, NIDs, NIFTs, government colleges of arts have conducted lectures and workshops for our design students in their first year. Our students focus on every product emphasizing its functionality, aesthetics, and sustainability. In addition to having highly competent professors, our department also has state-of-the-art facilities that allow for cutting-edge research, development, and instruction. Our department is one of the fastest-growing at the institute, and it shows in the student events, research papers, workshops we have conducted, MOUs, and partnerships with well-known institutions and businesses. The goal of the Bachelor of Design program is to train students to be exceptional designers who use their knowledge of design principles, methods, and processes to improve society as a whole. The Bachelor of Design program at Punjab Engineering College represents a transformative journey, empowering students to become catalysts of change in an increasingly complex and interconnected world. Through a combination of academic rigor, practical experience, and industry exposure, graduates emerge as versatile, forward-thinking designers poised to make a meaningful impact on society.
