

About PEC, Chandigarh

Punjab Engineering College (Deemed to be University) imparts quality and socially relevant education in engineering at undergraduate, postgraduate, and doctorate levels. Faculty and students of its department are involved in research activities of interest to society and industry. Our curriculum derives its strength from the design and project contents.

We strive to strengthen further our research programs as well as our relationship with industry by supporting our faculty and students to work on sponsored research and industrial projects and consultancy. We encourage collaborative programs, which enhance the interaction of our faculty and students with industry.

Objective of Conference

The objective of the conference is to bring chemists, physicists, material scientists, mathematicians, engineers, researchers, and professionals of matching interests on a common platform to share new ideas, experiences, and knowledge in various fields of science and technology.

The conference will serve as a platform to present current work by top researchers and to highlight the activities in the area of nanoscience and nanotechnology, materials sciences, numerical methods, and optimization techniques, mathematical modeling and its applications, organic and inorganic materials, green technology, climate change, biomedical devices and related scientific, engineering and commercial applications.

Thematic Areas

- Nanoscience and nanotechnology
- Materials sciences
- Numerical methods and optimization techniques
- Mathematical modeling and its applications
- Algebra, coding theory and topology
- Organic and inorganic materials
- Green technology and sustainability
- Renewable energy
- Climate change
- Biomedical devices
- Any other relevant topics
