Designation	Desirable Skill	Essential Qualifications	Emoluments/ month inc HRA

Research Associate - I	Strong foundation in Machine Learning (ML) and Deep Learning (DL) techniques, including supervised, unsupervised, and reinforcement learning models.
	- Experience with AI frameworks and libraries, such as:
	- TensorFlow, PyTorch, for deep learning
	- Transformers for NLP tasks
	- Proficiency in data preprocessing, feature engineering, dimensionality reduction, and time-series analysis.
	- Hands-on experience in developing and deploying models for:
	  o Anomaly detection
	  o Predictive analytics and forecasting
	- Familiarity with scientific computing tools (NumPy, Pandas, Matplotlib, Seaborn) and data visualization platforms.
	- Demonstrated ability to work with large-scale datasets, including unstructured data from text, audio, or IoT sources.
	- Strong programming proficiency in Python (preferred) and/or R, with good coding practices and documentation skills.
	- Exposure to real-world applications such as cyber fraud detection
		- Doctorate (Ph.D.) in Computer Science and Engineering or a closely related field OR
		- M.E./M.Tech. in Computer Science and Engineering, Information Technology, or equivalent discipline with a minimum of three years of relevant experience in research and/or software development
			56000/-

Office Helper	Punctuality, attention to detail, ability to multitask, and willingness to take responsibility for routine operational tasks.	**Education**: • high school (Matriculation) pass or equivalent**)** • 02 years of experience in operational work will be preferred	26800/-
