

ILLUMINATION ENGINEERING LAB

Objectives of the Laboratory:

- To verify the correlation among various luminaires parameters.
- To make the students conversant with various types of luminaires used in indoor/outdoor illumination applications.
- To study the utilization of electrical energy in the form of light.

Major Equipments in the Laboratory:

- Goniophotometer
- Luxmeters
- Wattmeters
- Voltmeters
- Ammeters
- Constant Voltage Transformer
- Luminaires (Indoor/ Outdoor): HPSV, HPMV, LED, CFL, Incandescent Lamp

Name of officials handling the Laboratory:

- Sh. Gurmail Singh(2014-till now)
- Mukesh Kumar
